

# NATIONAL HIV/AIDS AND AGING AWARENESS DAY

THE AIDS INSTITUTE

## SEPTEMBER 18TH

A national campaign highlighting the complex issues related to HIV prevention, care, and treatment for aging populations in the United States

### GOALS

- Increase the quality of life for people living with HIV
- Reduce stigma surrounding HIV among the aging population

### DID YOU KNOW?

In 2018, the Centers for Disease Control and Prevention (CDC) reported persons aged 50 and older accounted for approximately

**51%**

of persons living with HIV

**1 in 6 new diagnoses in the U.S. were in people aged 50 and older**

To find an HIV testing site near you, visit [gettested.cdc.gov](http://gettested.cdc.gov)
